

# Solutions today that **shape** **tomorrow**

Your global partner  
for **rotating equipment**  
services and maintenance

## Bridging the energy transition gap and decarbonizing operations

We act as a vital link in the evolving energy landscape, connecting conventional practices with a sustainable future.

Through customer partnerships, we help you bridge the energy transition with efficient solutions that ensure operational viability, compliance, and a commitment to support decarbonization.

Driven by continuous innovation, we secure energy for tomorrow, by making a positive impact today.

Turning on tomorrow  
**ethosenergy.com**

### Energy availability

Our expertise, solutions, and technology, keep your operation viable through the energy transition

### Affordable transition

Cost-effective solutions that maximizes the value of both owned and new assets

### Remain compliant

Meet and exceed ESG and emissions targets, regulations and compliance goals within budget and on schedule
